ARE YOU SELLING YOUR SHARE OF FOLIAGE PLANTS?

— A VERY PROFITABLE BUSINESS —

Millions of foliage plants are being sold each week to housewives for home decoration. Why not try to get your share of this profitable business?

Each year, we offer to the Florist trade the best plants available for interior use—in homes, clubs, restaurants, etc. The variety does not differ much from year to year, but when a new plant which proves satisfactory for use indoors is found, we are happy to add it to our list.

It is our constant endeavor to grow plants which will create different effects for particular locations such as in picture windows, modern homes, etc. If you do not find in our list the plant which suits your particular need, perhaps we can help you with suggestions.

Your order will go forward promptly. We try to ship an order out on the same day or the day following its receipt. If you are in urgent need of your order, please advise us and we will expedite it to the best of our ability.

Orders are packed without charge except for the crating of Chamaedorea palms. We make daily shipments by air, rail, and in some cases by truck line. Unless specified, we will ship by the most economical and satisfactory method.
